PRESSURA NSD8 NURSES STATION MONITOR

SKU: NSD8

Accessory designed as a remote interface for TSI PresSura Room Pressure Monitors and Controller. Displays room mode and alarm status for up to eight rooms.

PRODUCT DETAILS

The PresSura™ NSD8 Nurses Station Monitor accessory is designed as a remote interface for use with all TSI PresSura Room Pressure Monitors and Controller. It displays room mode and alarm status for up to eight rooms. When a room is

unoccupied, it can configure the room mode of connected PresSura Room Pressure Monitors and Controller from Positive/Negative to No Isolation Mode.

FEATURES & BENEFITS

- Displays up to eight rooms at one time
- Compatible with all TSI PresSura Room Pressure Monitors and Controller
- Audible and visual alarms
- Changes room mode to "No Isolation Mode" when pressure direction is not critical
- Autodiscover to automatically find connected PresSura Room Pressure Monitors and Controller
- Communicates outside of BAS, reducing BAS network traffic
